

THE BRADBURY

# HD CAVITY™ PRESS

## GET TOP PERFORMANCE AND OUTPUT WITH BRADBURY'S 400-TON HYDRAULIC PRESS

Maximize output, control, and reliability on your garage door production line with Bradbury's 400-ton Hydraulic HD Cavity Press. Two 100-hp electric motors power the hydraulic system. Advanced controls simplify setup for gauge and die. You can even adjust speed and stroke to fine tune panel production. On-board diagnostics, sequential motor startup, auto-lube features, and nitrogen-charged hold-down cylinders streamline maintenance and ensure long-term durability. Engineered for best-in-class performance, the HD Cavity Press is the ideal mate for a Bradbury rollforming line – backed worldwide by first-class service.

THE BRADBURY GROUP 

## YOUR SINGLE SOURCE SOLUTION

### BUILT RIGHT

- ◆ Single-action, 4-post design
- ◆ 400-ton capacity
- ◆ Hydraulic power with air/oil heat exchanger
- ◆ Two 100-hp electric motors
- ◆ 6-inch stroke, variable and down-acting
- ◆ Pedestal-mounted operator controls
- ◆ Thermal transfer unit with thermostat
- ◆ Prepped for nitrogen manifold
- ◆ Shutoffs on hydraulic hoses to speed service
- ◆ Auto-lube feature for guide post bushings
- ◆ Rigid construction for tight tolerances
- ◆ On-board diagnostics
- ◆ User-friendly Allen Bradley programmable controller
- ◆ 20" minimum shut height, 26" maximum daylight
- ◆ 40" x 60" between columns
- ◆ 11' 4" maximum height above floor
